

# XVI SOLANACEAE CONFERENCE

## YIELD & NUTRITION

### **Guido Sessa - Bio**

Prof. Guido Sessa is a molecular plant pathologist interested in the molecular mechanisms that govern plant immunity and susceptibility to bacterial pathogens. After graduating at the Weizmann Institute of Science, he carried out a postdoctoral training at Cornell University. Since 2000 he is a faculty member at Tel Aviv University and at present the Head of the School of Plant Sciences and Food Security.
